I am a student of Hasan and I am writing to provide you with a recommendation for him. I have had many lessons with Hasan. He is a really nice teacher. He is patient, responsible, and humorous. When I have lessons with Hasan, I never feel pressure from him. He made me feel relaxed even in the first lesson I had with him. It's not easy for me to pronounce some words in English, but Hasan is always patient and kind when he tries to correct my pronunciation. And because of cultural differences, it's also hard for me to tell the differences between some words but Hasan finds the best examples to help me understand them. Hasan makes me feel that English is easy and that having English lessons is enjoyable. I recommend him. I think he is a good teacher and he deserves a chance.
