RECOMMENDATIONS

regarding the English teacher Tembeka Madlala

These recommendations are issued to the South African English teacher, Thembeke Madlala (24 years old, Durban City), who has been providing long-term English language training to YUVILINA LLC.

In particular, Thembeke Madlala conducted personal classes with employees of the enterprise, group seminars, through the platforms Preply, WhatsApp Web, Zoom, Google Meet and used various modern methods, including multimedia techniques (video analysis, reading, discussion of different topics in English, working out grammar material on various exercises, etc.).

Thanks to the assistance provided to us by Tembeka Madlala, the company was able to significantly increase the level of English proficiency of its employees, who were able to master fluent speech in English, better understand English by ear and translate the texts of official documents in English, better understanding their meaning.

The activities of Thembeke Madlala are highly professional, conscientious and responsible. She has established herself as a successful mentor, deeply understanding the linguistic problems of foreigners and their related needs for learning English.

To improve the performance of the questions, we recommend that you contact this specialist, after working with whom we are sure that you will be satisfied.

Sincerely,

Head of the Legal Department of Yuvilina LLC

LG Fedin
