

## Recommendation letter

Xenia has been my colleague since the first day she started working, some years back (2006).

She is very creative, and not only does she manage to do her job in class in the best way possible and have the best results, but she also tries to find ways of engaging students in more productive ways of thinking and acting. For example, she managed to get them involved into publishing a very successful school newspaper and several times she directed theatre productions at school.

Moreover, she always tries to cooperate in the best way possible with her colleagues, always willing to help them but also to be open to their ideas.

All in all, she is a very responsible, dedicated and creative teacher that I definitely recommend.

Maria Deliyannoudi, IT Teacher in High School, Greece
